

BIKE SHELTER REFURBISHMENT

Balfour Beatty / Marks & Spencer

Milton Keynes

Project Overview

BalfourBeatty partnered with Fix My Shelter to carry out a full refurbishment of their clients on-site bike shelter in Milton Keynes. The existing structure had become worn over time, with ageing glazing panels and a deteriorating framework affecting both performance and appearance. The project focused on restoring durability, improving weather protection, and delivering a high-quality finish suitable for a busy construction environment. All works were completed efficiently within a 3 day timeframe, ensuring minimal disruption to site operations

Before

THE RESULTS

- ✓ Improved weather protection for bicycles and users
- ✓ Fully restored and recoated shelter framework
- ✓ Enhanced durability for a high-traffic construction site
- ✓ Modern, professional appearance
- ✓ Reduced ongoing maintenance requirements

After

CHALLENGE

- Ageing glazing panels reducing shelter performance
- Worn framework due to exposure to harsh site conditions
- Need for a durable solution suitable for a construction environment
- Works required careful planning within an active site

OUR SOLUTION

Fix My Shelter carried out a full glazing panel replacement, removing all existing panels and installing durable, high-quality replacements.

The works were completed efficiently within 3 days, ensuring minimal disruption while delivering a clean, professional finish

CLIENT FEEDBACK

“Fix My Shelter delivered an excellent refurbishment of our bike shelter. The team were professional, efficient, and kept us informed throughout the project. The finished result has significantly improved both the appearance and durability of the shelter. We were particularly impressed with how smoothly the work was carried out within a live construction environment. I would highly recommend their services” - Steve Dyllon - Site Manager
