

BIKE SHELTER REFURBISHMENT

Grove Park Primary School

Hounslow

Project Overview

Grove Park Primary School partnered with Fix My Shelter to refurbish their cycle shelters by replacing ageing Perspex glazing panels and fully recoating the existing frame and bike stands. The project improved safety, weather protection, and appearance, while extending the life of the school's existing shelter. All works were completed during school holidays, ensuring minimal disruption to pupils and staff.

Before

THE RESULTS

- ✓ Improved weather protection for bicycles and users
- ✓ Refreshed appearance of the cycle shelter area
- ✓ Extended lifespan of the existing shelter structure
- ✓ Reduced future maintenance requirements
- ✓ Safe, clean environment for pupils and staff

After

CHALLENGE

- Ageing and weathered Perspex glazing panels reducing shelter effectiveness
- Visual wear and deterioration of the shelter frame and bike stands
- Need to improve protection for bicycles used by pupils and staff
- Work required careful careful scheduling to avoid disruption with the school environment

OUR SOLUTION

Fix My Shelter carried out a complete refurbishment, replacing glazing panels and professionally recoating the shelter frame and bike stands. The project was carefully planned and completed during school holidays, ensuring a smooth, efficient installation with minimal disruption.

CLIENT FEEDBACK

"We recently had the pleasure of working with Fix My Shelter to replace the Perspex panels and repaint our bike shelters. Their communication was outstanding, and when an issue arose due to under-measuring some panels on our end, they quickly resolved it. The quality of the work was excellent and the finished result looks great. The team made the whole process stress-free and efficient."
