

BIKE SHELTER REFURBISHMENT

Barnwell High School

Stevenage

Project Overview

Barnwell High School partnered with Fix My Shelter to refurbish an existing cycle shelter that had become worn and weathered over time. The shelter framework had lost its original appearance, while ageing glazing panels were reducing both the visual appeal and effectiveness of the structure. The project involved a full professional recoat of the existing shelter framework together with the installation of new glazing panels. The refurbishment improved the shelter's appearance, weather protection and durability, while extending the lifespan of the existing structure and avoiding the cost of a full replacement.

Before

THE RESULTS

- ✓ Refreshed appearance of the cycle shelter area
- ✓ Improved weather protection for bicycles and users
- ✓ Extended lifespan of the existing shelter structure
- ✓ Reduced future maintenance requirements
- ✓ Enhanced environment for pupils and staff

After

CHALLENGE

- Existing shelter framework had become faded and weathered
- Ageing glazing panels were reducing the shelter's effectiveness
- Overall appearance of the shelter required improvement
- School wanted to extend the life of the existing asset rather than replace it
- Works needed to be completed safely with minimal disruption to the school environment

OUR SOLUTION

Fix My Shelter carried out a comprehensive refurbishment of the existing cycle shelter, professionally preparing and recoating the shelter framework before installing new glazing panels throughout the structure. The refurbishment restored the shelter's appearance, improved weather protection and helped protect the framework against ongoing wear and environmental exposure. The project was carefully planned and completed efficiently to minimise disruption while delivering a long-lasting improvement to the school's outdoor facilities.

CLIENT FEEDBACK

“The refurbishment has given our existing cycle shelter a new lease of life. The combination of the recoated framework and new glazing panels has dramatically improved the appearance of the shelter while helping us maximise the value of our existing asset”
Alex Pettit - Business Manager
